SUBJECT: HEALTH SCREENING POLICY

The Superintendent, working in conjunction with the administrative staff, will develop procedures regarding the education of parents pertaining to at home health screening and attestation procedures for the same, as well as procedures implementing health screenings performed by the District. Procedures must include provisions regarding the receiving and managing parent attestations to daily health screenings and a procedure which mandates that home health screenings take place before each school day. Additional procedures will be created regarding health screenings of individuals who enter District property by District employees, which ensure that such screenings are carried out in a safe and sanitary manner.

This policy will supersede and modify any existing policies regarding health and safety. This policy will remain in effect for the duration of the state of emergency declared by the Governor of the State of New York as a result of the COVID-19 pandemic.

NOTE:

Adopted: 08/05/2020
